

## **About the Company:**

Established in 2006, attune Consulting was the vision of a consortium of global experts including apparel manufacturers, apparel and footwear solutions (AFS) pioneers, and SAP executives who recognized a significant deficiency in specialized, global expertise for fashion-based companies. Together they formed attune Consulting, a passionate team of AFS professionals with a commitment to maintaining a “boutique” structure and philosophy: a highly specialized and personalized approach that aligns with the client-focused and brand-centric principles that drive strategic decisions in fashion- and lifestyle-based businesses.

Today attune Consulting is considered the premier, global SAP solution provider to the fashion and lifestyle industries. A trusted advisor to both global brands and brands that are preparing to expand into the global marketplace, attune has an established reputation for connecting people, processes and technology to make great fashion and lifestyle companies greater.

## **Position:**

SAP Project Manager, SAP Senior Project Manager
